**WEB DEVELOPMENT**

**PART 3**

**CHALLENGES, CHANGES AND IMPROVEMENTS**

**Challenges:** In Part 3, I had trouble implementing JavaScript capabilities, resolving website issues, properly displaying forms, and making sure GitHub Pages functioned.

**Changes:** I added JavaScript functionality, repaired the inquiry form, fixed file paths, and enhanced form validation, SEO, and website interactivity.

**Acquired skills:** My debugging, coding, and problem-solving abilities all increased. Additionally, I developed my JavaScript skills, tested the functionality of websites, and used GitHub to manage files.
